MUS'AB ANAS
Unity GAME DEVELOPER

Hello! I'm a Unity Game Developer/Programmer with over 3 years of hands-on experience building mini and small-scale games. I specialize in creating games from scratch, covering everything from core gameplay to basic 3D modeling, and backend integration including database and monetization systems. My passion for game development began in childhood and continues to grow as I explore new technologies and trends in the gaming world. I'm eager to collaborate and contribute to fun, engaging, and successful games.
